SUMMARY

Nonprofit Network has been asked to facilitate a board discussion to affirm mission, roles and responsibilities and how to best use their time, energy and resources.

About Nonprofit Network

The mission of Nonprofit Network is to support nonprofits in building governance, management, and organizational strength. We do this by providing numerous professional development opportunities for nonprofit boards and staff. We offer a broad range of consulting services. We help with strategic planning, retreats, and meeting facilitation, in addition to providing technical assistance on the board governance process like bylaw and grant review, organizational and board assessment, and board recruitment.

All Nonprofit organizations are unique. The path to efficiency, transparency and accountability is different for everyone. Nonprofit Network customizes services for each organization based on where they are in their life cycle, mission and structure. Using industry best practices as our guide, we work with organizations to first ensure they understand best practice and good governance. We then build on this foundation by identifying achievable and realistic goals which can be attained with existing board and staff.

SCOPE OF WORK

Executive Summary

The Owosso Historical Commission has spent significant time and energy on the Gould House which monopolized their discussions and focus. Now that the property has been sold, and the OHC has capacity to think differently, the organization has requested a facilitated discussion to reframe their work within the context of volunteer, time and asset availability. OHC has requested a facilitated discussion to help the board better understand its limitations and improve decision-making.

Understanding Your Needs

As an almost all volunteer organization serving the Owosso Community, your board's effectiveness is crucial to maintaining strong governance and achieving your mission. This facilitated session will address key areas of board responsibilities while providing direction and recommendations.

Scope of Work

Three two-hour facilitated sessions aimed to enhance the governance, focus, and strategic opportunities, ensuring a more effective and cohesive organization.

Session 1: Mission Understanding and Purpose

- Create a shared agreement about the purpose of the board
- Identify the assets each board member brings to the organization.
- How does OHC manifest its work toward mission?

Session 2: Activities that drive us toward mission

- Defining the capacity of the organization.
- Aligning programs and work.

Session 3: Structuring the Board to achieve desired outcomes

- Identify efficient ways to effectively deliver on our purpose.
- (Re)Create a governance structure to achieve realistic expectations.

Deliverables

- 1. 3 Facilitated 2-hour interactive sessions to engage participants and elicit feedback.
- 2. Summary report with recommendations.

Methodology

The consultant employs a structured approach, including pre-session discovery and assessment to inform the discussion. Using interactive facilitation techniques, real-time problem-solving, and collaborative solution development, the session will emphasize action-oriented outcomes, ensuring that all participants are engaged and invested in the process.
