

**CITY OF OWOSSO
REQUEST TO CHANGE BASE FLOOD ELEVATIONS
MIDDLE SCHOOL REDEVELOPMENT
AFFECTED PARCELS**

Parcel #: 050-120-002-007-00 Address: 340 Curwood Castle Drive

The eastern portion of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a slight reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will not have any impact on this parcel. These changes are subject to change based on FEMA's review.

Parcel #: 050-120-002-008-00 Address: 206 Curwood Castle Drive

The eastern edge of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in an increase of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in an increase of area within the floodplain for this parcel. These increases will not result in a higher base flood elevation but are a result of better contour data. These changes are subject to change based on FEMA's review.

Parcel#: 050-120-005-008-00 Address: 207 Curwood Castle Drive

The southeast corner of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will not have an impact on this parcel. The proposed changes to the 100-yr floodplain will result in a slight increase of area within the floodplain for this parcel. This increase will not result in a higher base flood elevation but is a result of better contour data. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-000-001-00 Address: N. Water Street

The western edge of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in a reduction of area within the floodplain for this parcel. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-000-002-00 Address: 201 N. Water Street

The western edge of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in a reduction of area within the floodplain for this parcel. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-024-001-00 Address: 300 W. Main Street

The northwest corner of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in a reduction of area within the floodplain for this parcel. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-038-002-00 Address: 219 N. Water Street

The western edge of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in an overall reduction of area within the floodplain for this parcel. However, there are some areas along the northern edge of this parcel that will have some widening of the floodplain. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-038-003-00 Address: 409 W. Williams Street

The southeast corner of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in a reduction of area within the floodplain for this parcel. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-038-004-00 Address: 405 W. Williams Street

The southern edge of this parcel will be affected by the proposed floodway and floodplain revisions. The proposed changes to the floodway will result in a reduction of area within the floodway for this parcel. The proposed changes to the 100-yr floodplain will also result in a reduction of area within the floodplain for this parcel. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-038-005-00 Address: 401 W. Williams Street

The southern edge of this parcel will be affected by the proposed floodway and floodplain revisions. This parcel is not currently in the floodway and the proposed changes will not have an effect on this parcel. The proposed changes to the 100-yr floodplain will result in an increase of area within the floodplain for this parcel. This increase will not result in a higher base flood elevation but is a result of better contour data. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-038-006-00 Address: 327 W. Williams Street

The southern edge of this parcel will be affected by the proposed floodway and floodplain revisions. This parcel is not currently in the floodway and the proposed changes will not have an effect on this parcel. The proposed changes to the 100-yr floodplain will result in an increase of area within the floodplain for this parcel. This increase will not result in a higher base flood elevation but is a result of better contour data. These changes are subject to change based on FEMA's review.

Parcel #: 050-470-038-007-00 Address: 321 W. Williams Street

The southwest corner of this parcel will be affected by the proposed floodway and floodplain revisions. This parcel is not currently in the floodway and the proposed changes will not have an effect on this parcel. The proposed changes to the 100-yr floodplain will result in an increase of area within the floodplain for this parcel. This increase will not result in a higher base flood elevation but is a result of better contour data. These changes are subject to change based on FEMA's review.
